OFFICE OF AUDITOR-CONTROLLER

December 10, 2003

To the Board of Supervisors and Citizens of Placer County:

The comprehensive annual financial report (CAFR) of the County of Placer, California (County) for the fiscal year ended June 30, 2003, is hereby submitted in accordance with Section 25253 of the Government Code of the State of California. This statute requires that the County annually issue a report on its financial position and activity, and that an independent firm of certified public accountants audit this report.

This report consists of management's representations concerning the finances of the County. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, management of the County has established a comprehensive internal control framework that is designed both to protect the government's assets from loss, theft or misuse and to compile sufficient reliable information for the preparation of the County's financial statements in conformity with generally accepted accounting principles (GAAP). Because the costs of internal controls should not outweigh their benefits, the County's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, the information contained herein is complete and reliable in all material respects.

The County's financial statements have been audited by Bartig, Basler & Ray, a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements for the fiscal year ended June 30, 2003 are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unqualified opinion that the County of Placer's financial statements for the year ended June 30, 2003, are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

The independent audit of the financial statements of the County was part of a broader, federally mandated "Single Audit" designed to meet the special needs of federal grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the audited government's internal controls and compliance with legal requirements, with special emphasis on internal controls and legal

requirements involving the administration of federal awards. These reports are available in the County's separately issued Single Audit Report.

GAAP require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. The MD&A can be found immediately following the report of the independent auditors.

The Financial Report

The Comprehensive Annual Financial Report consists of three main sections:

- The Introductory Section is intended to help readers get acquainted with the County, its organizational structure, the scope of its services and the legal context.
- The Financial Section presents the basic financial statements, which include the government-wide statements, the fund statements, the notes to the financial statements, management's discussion and analysis, and the independent auditor's report.
- The Statistical Section presents multi-year statistics on demographic and other data of interest to the reader.

Profile of the Government

The County is located 80 miles northeast of San Francisco, and Auburn, the County seat, is located 120 miles southwest of Reno. County encompasses over 1,431 square miles (including 82.5 square miles of water) and is bounded by Nevada County to the north, the State of Nevada to the east, El Dorado and Sacramento counties to the south, and Sutter and Yuba counties to the west.

A recent report from the federal Bureau of Labor Statistics U.S. Dept. of Labor has noted that Placer County experienced the biggest over-the-year percentage increase in employment among the largest counties in the United States. The growth in jobs has occurred in various parts of Placer County, ranging from the fast-growing cities in south Placer County to the high Sierra ski resorts of North Lake Tahoe. In the valley cities, there have been new businesses, major expansions in the service sector, expansions by local hospitals and jobs in the construction industry. Major upgrades at world-class ski resorts at North Lake Tahoe have created jobs in high Sierra communities.

The County's rapid growth is expected to continue into the next century. The 2003 estimated population of 275,600 is a 57 percent increase over the county's population in 1990. The county's population is expected to be over 339,300 by 2010, an increase of 23 percent over the current population. The fastest growing cities will continue to be Rocklin, Roseville and Lincoln, located in South County.

The County provides a wide range of services to its residents, including public protection through the Sheriff's Department, Fire Services, District Attorney's office, medical and health services, public assistance programs, sanitation services, the construction and maintenance of roads and infrastructure, environmental services, parks, libraries, and a variety of other general governmental services. Every resident of the County, directly or indirectly, benefits from these services. Most services performed by the County are provided for all residents, regardless of whether those residents live in cities or unincorporated areas. A major challenge to the County in future years will be the maintenance of these services to the extent feasible within the County's financial resources.

The financial reporting entity (County of Placer) includes all the funds of the primary government (the County of Placer as legally defined), as well as all of its component units. Blended component units, although legally separate entities, are considered to be part of the primary government's operations for financial reporting purposes, as required by GAAP. The following component units are blended: County Service Areas, Sewer Maintenance Districts, Newcastle and Penryn Lighting Districts, Redevelopment Agency of Placer County, and North Lake Tahoe Public Financing Authority. The First 5 Placer County Children and Families Commission is included in this report as a discretely presented component unit.

In accordance with the provisions of California Government Code Sections 29000 through 29143 inclusive, commonly known as the County Budget Act, the County prepares and adopts a budget for each fiscal year. Activities of the General Fund, Special Revenue Funds and Capital Projects Fund are included in the annual budget. The legal level of budgetary control (that is, the level at which expenditures cannot legally exceed the appropriated amount) is established at the departmental level except for fixed assets which are controlled at the line item level. The budgeted expenditures become law through the passage of an Appropriation Resolution. This Resolution constitutes the authorized spending threshold for the fiscal year, and cannot be exceeded except by subsequent amendment of the budget by the Board of Supervisors. In the governmental funds, an encumbrance system is used to ensure effective budgetary control and to enhance cash planning and control. Encumbrances outstanding at June 30 are reported as reservations of fund balance.

Factors Affecting Financial Condition

Placer County Economy: Placer County continues to be the fastest growing county in California. The services and trades sectors account for over 60% of total employment. The recent economy has produced mixed results for the County. A strong local real estate market continues to contribute to increases in property tax revenues, however, a leveling off or reduction to several other major sources of discretionary funding such as sales tax, interest earnings and transient occupancy taxes has also occurred.

State Government: The County is a political subdivision of the State of California and as such, its government is subject to State subventions and regulations. Intergovernmental revenues account for half of all governmental funds' revenue. Therefore, the County's financial health is tied closely to the financial condition of the State government. Recently, the California economy was affected by an economic downturn, an energy crisis, a large concentration of high technology companies and a stock market downturn. As a result, the State of California is predicting large budget deficits over the next

few years. Reductions of revenues as a result of a state deficit could have a significant impact on Placer County.

Long-term Financial Plans: The County has embarked on several projects with long-term financial impacts, including the following:

- Constructing a South County Criminal Justice Center, an Auburn Justice Center, and a Land Development Building, with estimated costs in excess of \$200,000,000.
- Continuing essential public health and welfare services threatened by State budget cuts.
- Continuing efforts to support Placer Legacy's Open Space and Agricultural Conservation Program
- Transitioning responsibility for trial court facilities from the County to the state
- Addressing the significant increases in Workers Compensation and retirement costs

Cash Management Policies and Procedures

Except for amounts held with trustees under bond indenture or other restrictive agreements, the County's cash and investments are invested by the County Treasurer. The Treasury Oversight Committee has regulatory oversight for all monies deposited in the Treasury Pool. Such amounts are invested in accordance with investment policy guidelines established by the County Treasurer and reviewed by the Board. The objectives of the policy are, in order of priority, safety of principal, liquidity, and yield. The policy addresses the soundness of financial institutions in which the County will deposit funds, types of investment instruments permitted by the California Government Code, and the percentage of the portfolio that may be invested in certain instruments with longer terms to maturity.

Risk Management

The County is self-insured for unemployment, general liability, worker's compensation, and certain employee health coverages. The County records estimated liabilities for such claims filed or expected to be filed for incidents which have occurred. The self-insured amounts for all types of losses except unemployment and dental and vision coverage are supplemented with insurance policies (refer to Note 12). County officials believe that assets of the Self Insurance Internal Service Fund, together with funds to be provided in the future, will be adequate to meet all of the claims related to these liabilities as they come due.

Awards and Acknowledgements

The Government Finance Officers Association (GFOA) of the United States and Canada awarded the Certificate of Achievement for Excellence in Financial Reporting to the County of Placer for its Comprehensive Annual Financial Report for the fiscal year ended June 30, 2002. This was the second consecutive year that Placer County received this prestigious award. In order to be awarded a

Certificate, a government unit must publish an easily readable and efficiently organized CAFR, the contents of which conform to program standards and satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current CAFR continues to meet the Certificate of Achievement Program's requirements and we are submitting to GFOA to determine its eligibility for another certificate.

The County also earned the State of California Controller's "Award for Achieving Excellence in Financial Reporting" for the fiscal year ended June 30, 2002. Key criteria for the award include timely submission of the financial transactions report and county budget, proper classification of revenue and expenditure data, and complete and proper reporting of outstanding debt.

The preparation of the Comprehensive Annual Financial Report was made possible by the dedicated services of the entire staff of the Auditor-Controller's Office. I would like to express my appreciation to all members of the department who assisted and contributed to its preparation. In addition, I acknowledge the leadership and support provided by the Board of Supervisors and the County Executive which have made the preparation of this report possible.

Respectfully submitted,

Katherine J. Martinis, CPA
Auditor-Controller

INDEPENDENT AUDITOR'S REPORT

The Honorable Board of Supervisors
County of Placer, California

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the County of Placer, California (County), as of and for the year ended June 30, 2003, which collectively comprise the County's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the County's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the County of Placer, California, as of June 30, 2003, and the respective changes in financial position and cash flows, where applicable, for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued a report dated November 6, 2003 on our consideration of the County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grants. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of our audit.

The Honorable Board of Supervisors
County of Placer, California

Management's discussion and analysis and schedules of funding progress and budgetary comparison information on pages 3 through 13 and pages 58 through 64 respectively, are not a required part of the basic financial statements but are supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County's basic financial statements. The introductory section, combining and individual nonmajor fund statements and schedules and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual nonmajor fund statements and schedules have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated, in all material respects, in relation to the basic financial statements taken as a whole. The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we express no opinion on them.

**COUNTY OF PLACER
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2003**

This section of the County of Placer's (County) comprehensive annual financial report presents a discussion and analysis of the County's financial performance during the fiscal year ended June 30, 2003. It should be read in conjunction with the transmittal letter at the front of this report and the County's basic financial statements following this section. All dollar amounts are expressed in thousands unless otherwise noted.

FINANCIAL HIGHLIGHTS

- The assets of the County exceeded liabilities at the close FY 2002-03 by \$549,565 (*net assets*). Of the net assets amount, \$192,999 in *unrestricted net assets* is available to meet ongoing obligations to citizens and creditors, \$102,880 in *restricted net assets* must be used only for specific purposes and \$253,686 is *invested in capital assets, net of related debt*.
- The County's total net assets increased by \$58,661. The increase is due to County growth as reflected by increases in property taxes, operating grants and contributions, and an increase in charges for services due to rate increases.
- As of June 30, 2003, the County governmental funds reported combined fund balances of \$268,344 an increase of \$26,629 in comparison with the prior year. Approximately 86.3 percent of the combined fund balances, or \$231,654 is available to meet the County's current and future needs (*unreserved fund balance*).
- At the end of the fiscal year, unreserved fund balance for the General Fund, the county's largest fund, was \$78,451 or 44.7 percent of total General Fund expenditures. However, this entire amount has been budgeted either for expenditure in FY 2003-04 or is reserved for future uses, although there is usually increased carryover fund balance each year from budget savings or revenues in excess of budget.
- The County's total long-term debt increased by \$2,675 in comparison with the prior year. New capital lease obligations accounted for \$480 of the increase. The balance relates to increases in estimates for compensated absences and self insurance liabilities.

OVERVIEW OF THE FINANCIAL STATEMENTS

The discussion and analysis in this section are intended to serve as an introduction to the County's basic financial statements. The County's basic financial statements comprise three components: 1) **Government-wide** financial statements, 2) **Fund** financial statements, and 3) **Notes** to the basic financial statements. **Required Supplementary Information** is included in addition to the basic financial statements.

Government-wide financial statements are designed to provide readers with a broad overview of the County finances, using accounting methods similar to those of a private-sector business. These statements provide both long-term and short-term information about the County's overall financial status. The government-wide financial statements can be found on pages 13-15 of this report.

The *Statement of Net Assets* presents information on all the County's assets and liabilities as of the end of the fiscal year, with the difference between the two reported as *net assets*. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the County is improving or deteriorating.

MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)

The *Statement of Activities* presents information on how net assets changed during the fiscal year, with revenues and expenses by major type or function. Revenues and expenses are reported when the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of these government-wide financial statements distinguish functions of the County that are principally supported by taxes, intergovernmental and program revenues (*governmental activities*) from other functions that are intended to recover most or all of their costs through user fees and charges (*business-type activities*). The governmental activities of the County include general government, public protection, public assistance, health and sanitation, public ways and facilities, recreation and cultural services and education. The business-type activities of the County include community health clinics, facilities management, food services, public transit and waste disposal.

Blended component units are included in the County's basic financial statements and consist of legally separate entities for which the County is financially accountable and that have substantially the same board as the County or provide services entirely to the County. Examples are the Redevelopment Agency of Placer County, the North Lake Tahoe Public Financing Authority and numerous County Service Areas and Special Districts governed by the Board of Supervisors. The First 5 Placer County Children and Families Commission is reported as a discretely presented component unit because the governing body is not substantially the same as the County Board of Supervisors. For further information concerning the Redevelopment Agency of Placer County and the Placer County Children and Families Commission, refer to the separately issued financial statements, which are available from the Office of the Auditor-Controller upon request.

Fund financial statements are the more familiar groupings of related accounts that are used to keep track of specific sources of funding and spending for particular purposes. Some funds are required by state or federal law or by debt covenants. All of the County's funds can be divided into three categories: *governmental funds*, *proprietary funds* and *fiduciary funds*.

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, the governmental funds financial statements focus on the shorter-termed financial resources, such as cash, that (1) have been spent on governmental programs during the fiscal year and (2) that will be available for financing such programs in the near future. The governmental funds financial statements are presented by major fund and for nonmajor funds in the aggregate on pages 17-19 of this report.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental funds balance sheet and the governmental funds statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The County maintains 21 individual governmental funds. Information is presented separately in the governmental funds balance sheet and in the governmental funds statement of revenues, expenditures and changes in fund balances for the General Fund, Public Safety Fund, Public Ways and Facilities Fund, Capital Improvements Fund and Capital Projects Securitization Fund. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for these nonmajor governmental funds are provided in the form of combining statements elsewhere in this report.

MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)

Proprietary funds are of two types: enterprise funds and internal service funds. These funds provide services that are usually supported in total or major part by customer fees and charges. The proprietary funds financial statements can be found on pages 21-25 of this report.

Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. As noted previously, the County uses enterprise funds to account for Transit, Facilities, Health and Human Services, County Service Areas and Sewer Maintenance Districts.

Internal service funds are an accounting device used to accumulate and allocate costs for services to the County's various functions. The County uses internal service funds to account for its telecommunications operations, workers' compensation and risk management, employee dental and vision and unemployment insurance programs, fleet services operations and maintenance, special district's administration and operations, correction's food services and countywide technology development and maintenance. Because these services predominantly benefit governmental rather than business-type functions, they have been included primarily within *governmental activities* in the government-wide financial statements, except for special districts administration and operations, which primarily benefit the county service areas, sewer maintenance districts and waste disposal operations.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. All of the County's enterprise funds are considered to be major enterprise funds. The County's three internal service funds are also combined into a single, aggregated presentation in the proprietary funds financial statements. Individual fund data for the internal service funds are provided in the form of combining statements elsewhere in this report.

Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the County's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds, except for agency funds, which have more limited accounting and financial statements because of their purely custodial character. The fiduciary fund financial statements can be found on pages 26-27 of this report.

Notes to the Basic Financial Statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes can be found on pages 28-57 of this report.

Required Supplementary Information is presented concerning budgetary comparison schedules for the General Fund and major Special Revenue Funds, as well as the schedules of funding progress. Required supplementary information can be found on pages 60-64 of this report.

Immediately following the required supplementary information, the combining and individual fund statements and schedules referred to earlier provide information for nonmajor governmental funds and internal service funds. The combining and individual fund statements and schedules can be found on pages 65-95 of this report.

MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)

GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. In the case of the County, net assets (assets in excess of liabilities) were \$549,565 at June 30, 2003, the close of the County's fiscal year.

The largest portion of the County's net assets of \$253,686 (46.2 percent) reflects its investment in *capital assets* (e.g. land and easements, structures and improvements, infrastructure, and equipment), less any related debt used to acquire those assets that is still outstanding. The County uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the County's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, such as tax revenues, since the capital assets themselves cannot be used to liquidate these liabilities. Another significant portion of the County's net assets (35.1 percent) represents *unrestricted net assets* of \$192,999, which may be used to meet the County's ongoing obligations to citizens and creditors. The remaining balance of the County's net assets of \$102,880 (18.7 percent) represents resources that are subject to external restrictions on how they may be used.

At the end of the current fiscal year, the County reported positive balances in all three categories of net assets, both for the County as a whole, as well as for its separate governmental and business-type activities.

MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)

The County's total net assets increased by \$58,661. The increase is due to County growth as reflected by increases in property taxes, operating grants and contributions, and an increase in charges for services due to rate increases. The following table indicates the changes in net assets for governmental and business-type activities:

MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)

Governmental activities increased the County's net assets by \$49,271 thereby accounting for most of the increase in net assets of the County. The increase is due to County growth as reflected by increases in property taxes, operating grants and contributions, and an increase in charges for services due to rate increases.

MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)

Business-type activities increased the County's net assets by \$9,389. The key factor that contributed to this increase was increased operating and capital grants and contributions and charges for services.

MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)

FINANCIAL ANALYSIS OF THE COUNTY'S FUNDS

As noted earlier, the County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds

The County's general government functions are contained in the General, Special Revenue, Debt Service, Capital Projects Funds and Permanent Fund. Also included in these funds are the special districts governed by the Board of Supervisors. As noted previously, the focus of the County's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the County's more immediate financing requirements.

In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year. At June 30, 2003, the County's governmental funds reported combined fund balances of \$268,344, an increase of \$26,629 in comparison with the prior year. Approximately 86.3 percent of the combined fund balances, or \$231,654, constitutes unreserved fund balance, which is available to meet the County's current and future needs. The remainder of fund balance is reserved indicating that it is not available for new spending because it has been committed: 1) to pay debt service; 2) to reflect inventories and the amount due from other funds that are long-term in nature and thus do not represent available spendable resources; 3) to liquidate contractual commitments of the period; and 4) a general reserve established per County policy.

The General Fund is the chief operating fund of the County. At June 30, 2003, unreserved fund balance of the General Fund was \$78,451, while total fund balance reached \$87,926. As a measure of the General Fund's liquidity, it may be useful to compare both unreserved fund balance and total fund balance to total fund expenditures. Unreserved fund balance represented 44.7 percent of total fund expenditures, while total fund balance represented 50.1 percent of that same amount. The County General Fund's fund balance decreased by \$10,174 during the current fiscal year. The key factor in this decrease was additional operating transfers to the Public Safety Fund, Capital Improvements Fund and County Services Fund. The remaining major funds and other governmental funds' balances increased by \$36,804 to \$180,419. The key factor in this increase is due to increases in General Fund operating transfers and developer fees in the Capital Improvements Fund.

The following table presents the amount of revenues from various sources as well as increases or decreases from the prior year displayed.

- *Taxes* increased by \$6.9 million or 22%. This increase is a result of the strong local real estate market as the County is the fastest-growing County in California.
- *Charges for services* increased \$21 million or 67%. This increase is due to increased fees for development and mitigation.

MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)

The following table presents the amount of expenditures by function as well as increases or decreases from the prior year displayed.

- *Public protection* expenditures increased \$13 million or 35%. This increase is due to increased salaries and benefits for staffing at the new jail wing, court security costs and additional security services provided to the new casino.
- *Public assistance* expenditures decreased \$13 million or 36%. This decrease is a result of the reclassification of mental health expenditures for Adult System of Care and Children's System of Care to the health and sanitation function.
- *Health and sanitation* expenditures increased \$23 million or 64%. Most of this increase is a result of the reclassification of mental health expenditures as discussed above. The remaining increase is due to increases in federal and state-mandated operating grants.
- *Capital outlay* expenditures increased \$8 million or 22%. This increase is due to the completion of the new jail wing and Bell Road widening, continued construction of a compressed natural gas facility and completed sewer maintenance district projects.

Proprietary funds

The County's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail. The net assets of the enterprise funds increased 5%, or \$9,225 to \$107,055. Most of this increase came from increased operating and capital grants and contributions and charges for services. The internal service funds net assets increased by \$3,982 to \$21,832. Most of this increase came from one-time transfer from the General Fund to the County Services Fund for the implementation of our new payroll/personnel system.

GENERAL FUND BUDGETARY HIGHLIGHTS

Differences between the original budget and the final amended budget for the fiscal year ended June 30, 2003 resulted in a \$5,407 increase in appropriations and can be briefly summarized as follows:

- \$2,247 in increases in general government activities caused by an additional contribution to the Library Fund and an increase for the revenue recovery collections program.
- \$970 in increases allocated to public protection caused by a new civil assessment agreement with the Courts.

MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)

- \$2,536 in increases allocated to public assistance caused by changes at the State level for administration of operating grants and a new federal grant for Bio-Terrorism and Preparedness.
- \$507 in increases allocated to capital outlay due to additional equipment needs for the Clerk-Recorder.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital assets

The County's investment in capital assets for its governmental and business-type activities as of June 30, 2003, amounted to \$285,701 (net of accumulated depreciation). This investment in capital assets includes land and easements, infrastructure, structures and improvements, equipment and construction in progress. The total increase in the County's investment in capital assets for the current period was 7.9 percent or approximately \$21million.

Major capital asset events during the current fiscal year included the following:

- \$15,496 increase to structures and improvements
- \$7,205 increase to infrastructure
- \$7,471 increase to construction in progress

More detailed information about the County's capital assets is presented in Note 4 in the basic financial statements.

Long-term debt

At June 30, 2003, the County had total long-term debt outstanding of \$73,898. This amount is comprised of \$25,520 of certificates of participation, \$17,176 of compensated absences, \$2,856 of sewer and water and lease revenue bonds, \$20,456 of self insurance liability, \$5,018 of landfill postclosure liability and \$2,872 of capital leases payable. During the year, retirement of debt amounted to \$10,447. Additions included \$480 for new capital leases, \$4,136 for compensated absences, and \$8,310 for self insurance liability.

More detailed information about the County's long-term debt is presented in Notes 7 and 8 in the basic financial statements.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET

Due to the State budget crisis and the resulting risk of significant revenue reductions from State sources, the following factors were considered in preparing the County's balanced budget for fiscal year 2003-2004:

- ❖ To develop the department requested budgets at or near fiscal year 2002-2003 funding levels. Restrictions on expenditure growth were necessary to balance the budget and stabilize service delivery systems.
- ❖ To maintain current and appropriate operations, programs and service levels.
- ❖ To maintain infrastructure within overall financial resources including facilities, technology, and investments in County "quality of life" efforts.
- ❖ To maintain, where possible, adequate contingencies and capital and other reserve levels.

In addition to the above, these factors were also considered:

- ❖ The fiscal year 2003-2004 budget relies on a year of slow paced growth.
- ❖ The County's unemployment rate is at 4.6%, comparing favorably to the State of California rate of 6.7% and the U.S. rate of 6.1%.
- ❖ Salary and benefit costs in the County's operating funds have increased approximately \$11.1 million or 6.8% from the prior year budget. In addition to expected salary adjustments for cost of living and merit increases, the cost for employee medical, dental and vision insurance coverage continues to rise at a phenomenal rate. Also, the continuing poor performance of the investment market and sluggish economy has resulted in increased costs for contributions to the employee retirement system.
- ❖ Changes occurring in the insurance industry nationwide since the events of September 11th have caused insurance premium rates for next year's coverage to escalate upward of 100-150%. Escalating insurance costs were passed on to County departments through workers' compensation and general liability rate increases.
- ❖ The Board of Supervisors has approved a \$290 million Capital Facilities Financing Plan, including construction of the Auburn Justice Center and Land Development Buildings, renovation of the Fulweiler Administrative Annex, the South Placer Criminal Justice site acquisition and the Public Works Cabin Creek relocation.
- ❖ On July 9, 2003, the State notified counties they have ceased distributing part of the motor vehicle license fee and it is unknown as to how and when this will be funded by the State. The fiscal year 2003-2004 budget assumed full apportionment of the motor vehicle license fee.

Amounts reported for governmental activities in the statement of net assets are different because:

Capital assets used in governmental activities are not financial resources and therefore are not reported in the funds.	189,254,573
Other long-term assets are not available to pay for current-period expenditure and, therefore, are deferred in the funds.	6,605,495

Internal service funds are used by management to charge the costs of certain activities, such as insurance and telecommunications, to individual funds. The assets and liabilities of the County Services and Self Insurance Internal Service Funds are included in governmental activities in the statement of net assets.	20,352,012

County of Placer, California
Reconciliation of the Statement of Revenues,
Expenditures and Changes in Fund Balances of Governmental Funds
to the Statement of Activities
For the Fiscal Year Ended June 30, 2003

Amounts reported for governmental activities in the statement of activities (Pages 16-17) are different because:

Net change in fund balances - total governmental funds (Page 21)	\$ 26,629,062
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.	
Capital outlay	26,259,775
Donated capital assets	
Depreciation expense	(11,090,137)
The net effect of various miscellaneous transactions involving capital assets (i.e. sales, trade-ins, donations) is to decrease net assets.	(784,426)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the fund.	5,082,068
The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets.	
Proceeds from capital lease financing	(479,644)
Debt principal payments	1,095,934
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.	
Compensated absences	(1,276,403)
Accrued interest payable	16,834
Internal service funds are used by management to charge the costs of telecommunications, countywide technology projects, fleet, reprographics, mail, records management, self insurance and dental and vision insurance. The net expense of certain activities of the County Services and Self Insurance Internal Service Funds are reported with governmental activities.	3,818,059
Change in net assets of governmental activities (Page 17)	<u>\$ 49,271,122</u>

**COUNTY OF PLACER, CALIFORNIA
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2003**

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity

The County of Placer (the County) is a political subdivision of the State of California. An elected, five-member Board of Supervisors (the Board) governs the County. The Board is financially accountable for the Governmental Funds, Proprietary Funds, Fiduciary Funds, and the Discretely Presented Component Unit. Such financial accountability is determined on the basis of budget adoption, taxing authority, financial benefit or burden, funding and appointing a voting majority of the governing authority, designation of management, ability of the Board to impose its will, and fiscal dependency. The basic financial statements of the County include the financial activities of the following legally separate entities:

Blended Component Units

The County Service Areas are separate legal entities created to provide services such as water, sewer, lighting, and road maintenance throughout the County.

The Sewer Maintenance Districts are separate legal entities formed to provide sewer maintenance services within the County.

The Newcastle and Penryn Lighting Districts are separate legal entities formed to provide utilities services in these districts within the County.

The Redevelopment Agency of Placer County is a separate legal entity formed to administer the development of certain areas within the County.

The North Lake Tahoe Public Financing Authority is a separate legal entity formed to provide for the financing and refinancing of land improvements, facilities and equipment for public purposes.

These entities are included in the County's reporting entity because of their operational and financial relationship with the County. Although the above entities are legally separate from the County, they are reported as part of the primary government because their Boards consist of the County Board of Supervisors.

Discretely Presented Component Unit

The First 5 Placer County Children and Families Commission (the Commission) was established under the provisions of the California Children and Families Act (the Act). The Commission is a public entity legally separate and apart from the County and its purpose is to develop, adopt, promote and implement early childhood development programs in the County of Placer consistent with the goals and objectives of the Act. The Commission's programs are funded by taxes levied by the State of California on tobacco products.

COUNTY OF PLACER, CALIFORNIA
NOTES TO THE BASIC FINANCIAL STATEMENTS (CONTINUED)
FOR THE FISCAL YEAR ENDED JUNE 30, 2003

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The Commission is administered by a governing board of seven members, which are appointed by the County Board of Supervisors. Three members are representatives of the County's health care departments, County's social services departments and Board of Supervisors. The County Board of Supervisors may remove any Commission member at any time. Since the County Board of Supervisors can impose their will on the Commission, the Commission is considered a component unit of the County.

Separate financial statements for the Redevelopment Agency of Placer County, the North Lake Tahoe Public Financing Authority and the Commission may be obtained by contacting the County. Separate financial statements for the other legally separate entities are not issued.

Activities of the County school districts and other special purpose districts administered by Boards separate from, or independent of, the County Board of Supervisors are not part of the defined reporting entity because they do not meet the above financial accountability criteria.

B. Government-wide and Fund Financial Statements

The statement of net assets and statement of activities display information about the primary government (the County) and its component units. These statements include the financial activities of the overall government, except for fiduciary activities. Eliminations have been made to minimize the double counting of internal activities. These statements distinguish between the *governmental* and *business-type activities* of the County and between the County and its discretely presented component unit. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely, to a significant extent on fees charged to external parties.

The statement of activities presents a comparison between direct expenses and program revenues for each segment of the business-type activities of the County and for each function of the County's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a specific segment or function. The County includes certain indirect costs as part of the program expenses reported for various functional activities. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given segment or function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular segment or function. Taxes and other items not properly included among program revenues are reported instead as general revenues.

When both restricted and unrestricted net assets are available, unrestricted resources are used only after the restricted resources are depleted.

Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds, even though fiduciary funds are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

FOR THE FISCAL YEAR ENDED JUNE 30, 2003

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide, proprietary fund and fiduciary fund financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using *the current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the County considers revenues to be available if they are collected within 365 days of the end of the current fiscal period, except for property taxes, which the County considers available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, are recorded only when payment is due. The governmental funds used to liquidate compensated absences are the General Fund, Public Safety Fund, Public Ways and Facilities Fund, Capital Improvements Fund, Community Services Fund, County Library Fund, Fire Control Fund and the Redevelopment Agency Housing Fund.

Property taxes, franchise taxes, licenses, grants and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when the government receives cash.

The County reports the following major governmental funds:

The **General Fund** is the County's primary operating fund. It accounts for all the financial resources and the legally authorized activities of the County, except those required to be accounted for in another fund.

The **Public Safety Special Revenue Fund** is used to account for the operations of Public Safety departments, including the Sheriff, Probation and District Attorney.

The **Public Ways and Facilities Special Revenue Fund** is used to account for the planning, design, construction, maintenance and administration of County roads.

The **Capital Improvements Fund** was established to account for resources used for countywide facility acquisition and improvement needs and is used to account for deposits from developers and mitigation fees collected by the County and incorporated Cities related to new growth and development within the County.

The **Capital Projects Securitization Fund** is used to account for financial resources resulting from the sale of the County's rights to future tobacco settlement payments. Use of these funds is restricted to the acquisition and construction of specific major capital facilities.

The County reports the following major enterprise funds:

The **Transit Fund** accounts for the costs of providing transit services throughout the County.

The **Facilities Fund** accounts for activities related to property management and building maintenance for County-owned and leased buildings and solid waste and landfill operations.

The **Health and Human Services Fund** accounts for a variety of health and social services programs.

The **County Service Areas Fund** is used to account for financial resources collected in specific areas of the County which provide services such as snow removal and irrigation or to pay down debt incurred for public improvements.

The **Sewer Maintenance Districts Fund** accounts for water and sewer maintenance activities in specific areas of the County.

Additionally, the County reports the following fund types:

The **Internal Service Funds** account for the financing of goods or services provided by one department or agency to other departments or agencies of the County or other governmental units on a cost reimbursement basis. Activities include the County's self-insurance programs, providing services to County-governed districts, service areas and advisory councils and equipment financing of the County.

The **Investment Trust Fund** accounts for the assets of legally separate entities that deposit cash with the County Treasurer in an investment pool, which commingles resources of in an investment portfolio for the benefit of all participants. These participants include school and community college districts, other special districts governed by local boards, regional boards and authorities, and pass-through funds for tax collection for cities.

Agency Funds are custodial in nature and do not involve measurement of the results of operations. Such funds have no equity accounts since all assets are due to individuals or entities at some future time. These funds account for assets held by the County as an agent for individuals and other government units.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the County's proprietary funds are charges to customers for sales and services. Operating expenses include the cost of sales and services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

In accordance with GASB Statement No. 20, *Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities That Use Proprietary Fund Accounting*, the County has elected to apply all applicable GASB pronouncements as well as any applicable pronouncements of the Financial Accounting Standards Board, the Accounting Principles Board or any Accounting Research Bulletins issued on or before November 30, 1989, unless those pronouncements conflict with or contradict GASB pronouncements. The GASB periodically updates its codification of the existing Governmental Accounting and Financial Reporting Standards which, along with subsequent GASB pronouncements (Statements and Interpretations), are accounting principles generally accepted in the United States of America.

D. Assets, Liabilities and Net Assets or Equity

Cash and Investments

The County pools cash and investments with the County Treasurer except for investments managed by paying agents under bonded debt agreements. Interest from bank accounts and investments are allocated to the various funds based on the average daily balances of the funds entitled to receive interest.

The County has stated required investments at fair value in the statement of net assets and balance sheet. The fair value of investments is based on published market prices and quotations from major investment brokers. The investments are marked to market and the net asset value is calculated for the County Treasurer's Investment Pool (the Pool) monthly.

The County Treasurer has not provided or obtained any legally binding guarantees during the year to support the value of participants' shares in the Pool.

The fair value of investments is determined monthly. The value of participants' pool shares is based on amortized cost. Specifically, the Pool distributes income to participants based on their relative participation during the period. Income is calculated based on (1) realized investments gains and losses calculated on an amortized cost basis, (2) interest income based on stated rates (both paid and accrued), (3) amortization of discounts and premiums on a straight-line basis and (4) investment and administrative expenses. This method differs from the fair value method used to value investments in these financial statements because the amortized cost method is not designed to distribute to participants all unrealized gains and losses in the fair values of the Pools' investments. At June 30, 2003, there is no material difference between pool participants' shares valued on an amortized cost basis compared to fair value.

For purposes of the Statement of Cash Flows – Proprietary Funds, the County considers all short-term highly liquid investments, including restricted cash and investments, to be cash and cash equivalents. Amounts held in the County's investment pool are available on demand; thus, they are considered highly liquid and cash equivalents for purposes of the Statement of Cash Flows – Proprietary Funds.

D. Assets, Liabilities and Net Assets or Equity (Continued)

Interfund Receivables and Payables

Interfund transactions are reflected as either loans, services provided, reimbursements or transfers. Loans are reported as receivables and payables as appropriate, are subject to elimination upon consolidation and are referred to as either “due to/from other funds” (i.e., the current portion of interfund loans) or “advances to/from other funds” (i.e., the noncurrent portion of interfund loans) in the balance sheet of governmental funds and statement of net assets for proprietary funds. Any residual balances outstanding between the governmental activities and the business-type activities are reported in the government-wide financial statements as “internal balances”. Advances between funds, as reported in the government funds balance sheet, are offset by a fund balance reserve account to indicate that they are not available for appropriation and are not available financial resources.

Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures/expenses. Reimbursements are when one fund incurs a cost, charges the appropriate benefiting fund and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers. Transfers between governmental or proprietary funds are netted as part of the reconciliation of the government-wide presentation.

Inventories and Prepaid Items

Inventories are valued at cost, which is determined on a first-in first-out basis, and consist primarily of expendable supplies held for consumption. The cost is recorded as an expenditure when the items are used. In the governmental funds balance sheet, there is a reservation of fund balance equal to the inventory balance as these amounts are not available for appropriation.

Payments made for services that will benefit future accounting periods are recorded as prepaid items. In the governmental fund types, there is a reservation of fund balance equal to the amount of prepaid items, since these amounts are not available for appropriation.

Restricted Cash and Investments

Restricted cash and investments consist of \$693,802 in the Facilities Enterprise Fund. The investments are restricted for the payment of closure and postclosure care costs associated with the Eastern Regional Landfill. See Note 13 to the basic financial statements for additional landfill disclosures.

Capital Assets

Capital assets, which include property (e.g. land), plant (e.g. buildings and improvements), equipment (e.g. vehicles, computers, office equipment and software) and infrastructure (e.g. roads, bridges, sewers, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are recorded at cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at the estimated fair market value at the date of donation.

Capitalization thresholds are \$5,000 for equipment and \$50,000 for buildings, improvements and infrastructure.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

Infrastructure	10 to 65 years
Buildings and improvements	10 to 50 years
Equipment	2 to 25 years

Compensated Absences

The County reports a liability for compensated absences that is attributable to services already rendered as of June 30, 2003 and that are not contingent on a specific event that is outside the control of the County, such as employee illness. This liability is based on the probability that the County will eventually compensate the employees for the benefits through paid time off or some other means, such as annual leave cash-outs or cash payments at termination or retirement. The liability is calculated based on pay rates in effect at June 30, 2003, in addition to those salary-related payments that are directly and incrementally associated with payments made for compensated absences on termination, Social Security and Medicare taxes.

All regular employees of the County earn paid vacations annually. The amount of vacation hours is based on the years of continuous service and the bargaining unit to which the employee belongs. Except for management employees, no more than 400 hours, or 520 hours after 10 continuous years of service, may be accumulated as of the last day of the first full pay period of each calendar year. Management employees can accumulate up to 520 hours. Also, regular employees are given credit for eight hours sick leave each month of employment with unlimited accumulation. Upon termination, employees are entitled to lump sum payment for accrued vacation and a portion of sick leave, based on a formula. All compensated absence pay is accrued when incurred in the government-wide and proprietary fund financial statements.

D. Assets, Liabilities and Net Assets or Equity (Continued)

Long-term Debt

In the government-wide and proprietary funds financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental or proprietary funds statement of net assets. In the fund financial statements, governmental funds bond and capital lease proceeds are reported as other financing sources. Interest is reported as an expenditure in the period in which the related payment is made.

Net Assets/Fund Balances

The government-wide and proprietary fund financial statements utilize a net assets presentation. Net assets are categorized as invested in capital assets - net of related debt, restricted and unrestricted.

- ❑ *Invested in capital assets, net of related debt* – This category groups all capital assets, including infrastructure, into one component of net assets. Accumulated depreciation and the outstanding balances of debt that are attributable to the acquisition, construction or improvement of these assets reduce the net asset balance.
- ❑ *Restricted* – This category represents external restrictions imposed by creditors, grantors, contributors, or laws or regulations of other governments and restrictions imposed by law through constitutional provisions or enabling legislation.
- ❑ *Unrestricted* – This category represents net assets of the County, not restricted for any project or other purpose.

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted for a specific purpose.

As of June 30, 2003, reservations of fund balance are described below:

- ❑ *Encumbrances* – to reflect the outstanding contractual obligations for which goods and services have not been received.
- ❑ *Notes receivable* – to reflect a segregation of a portion of fund balance to indicate that assets equal to long-term redevelopment agency housing loans are not available for appropriation.
- ❑ *Inventories* – to reflect that balances of inventory accounts which reflect resources already expended, but not consumed.

D. Assets, Liabilities and Net Assets or Equity (Continued)

- ❑ *Prepaid items* – to reflect that balances of prepaid items accounts which resources already expended, but are not considered available spendable resources.
- ❑ *Advances* – to reflect the amounts due from other funds that are long-term in nature and do not represent available spendable resources.
- ❑ *Imprest cash* – to reflect cash on hand maintained by various departments which do not represent available spendable resources.
- ❑ *General* – to reflect County policy in establishing a minimum percentage of budgeted expenditures to expend certain resources for unforeseen future events, including shortfalls arising from economic uncertainties.
- ❑ *Debt service* – to reflect the funds held by trustees or fiscal agents for the future payment of principal and interest on the certificates of participation. These funds are not available for general operations.

Property Taxes

The County's property taxes are levied July 1 (Unsecured Roll) and October 1 (Secured Roll) on assessed value established on the lien date of the previous January 1 for all taxable property located within the County. Local assessed values are determined, subject to appeal before the Assessment Appeals Board, by the County Assessor's Office. Locally assessed real property is appraised at the 1975-76 base year value and is adjusted each year after 1975 by the change in the California Consumer Price Index (CCPI) not to exceed an increase of 2% per year.

Property is reappraised from the 1975-76 base year value to current full value upon either (1) a change in ownership or (2) new construction, as of the date of such transaction or completion of construction (only the newly constructed portion of the property is reappraised). Thereafter, it continues to be increased annually by the change in the CCPI not to exceed 2%. The net asset value for the 2002-2003 fiscal year is \$31,343,249,000.

The County is permitted by Division 1, Part 0.5, Chapter 5.5, of the California Revenue and Taxation Code, to levy taxes up to \$1.00 per \$100 of assessed valuation for general governmental services other than payment of principal and interest on general obligation bonds or other indebtedness approved by voters. Taxes are allocated to local agencies and school districts as outlined in Chapter 6 of the California Revenue and Taxation Code. Counties, cities, and school districts may levy such additional tax rate as is necessary to provide for voter-approved debt service.

Taxes are due in one installment (Unsecured Roll) on billing and are subject to late payment penalties if paid after August 31, or two installments (Secured Roll) due November 1 and March 1, and again subject to late payment penalties if paid after December 10 and April 10, respectively. Additionally, supplemental property taxes are levied on a pro rata basis when changes in assessed valuation occur due to sales transactions or the completion of construction.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

D. Assets, Liabilities and Net Assets or Equity (Continued)

In fiscal year 1993-94, the County adopted the Alternate Method of Property Tax Allocation (commonly referred to as the Teeter Plan). Under the Teeter Plan, the County Auditor-Controller, an elected official, is authorized to pay 100% of the property taxes billed (secured, supplemental, and debt service) to the taxing agencies within the County. The County recognizes property tax revenues in the period for which the taxes are levied. Previously, such taxes were allocated and paid as the taxes were collected. Property taxes are accrued as receivables in the period when they are levied. Property tax revenues are recognized when they become available.

The term "unsecured" refers to taxes on personal property other than real estate, land and buildings. Taxes on real estate, land and buildings are secured by liens on property being taxed.

Use of Estimates

The preparation of the basic financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

NOTE 2 - CASH AND INVESTMENTS

The Treasurer's Investment Pool is available for use by all funds. The County also has cash and investments held by fiscal agents pledged to the payment or security of certain long-term obligations.

Cash and investments at June 30, 2003 are comprised of the following:

Cash on hand	\$ 2,390,839
Imprest cash	11,993

Deposits

The California Government code requires California banks and savings and loan associations to secure a local governmental agency's deposits by pledging government securities as collateral. The market value of pledged securities must equal at least 110% of an agency's deposits. California law allows financial institutions to secure an agency's deposits by pledging first trust deed mortgage notes having a value of 150% of an agency's total deposits. California law also allows an agency to waive the \$100,000 federal deposit insurance available on deposits.

At June 30, 2003, the carrying amount of the County's cash deposits (including amounts in checking and nonnegotiable certificates of deposit) was \$35,431,665 and the bank balance was \$35,446,526. Of the bank balance, \$639,635 was covered by federal depository insurance and \$34,806,891 was collateralized by the financial institutions pursuant to the above requirements.

Investments

Statutes authorize the County to invest in obligations of the U.S. Treasury, agencies and instrumentalities, bonds issued by the County, commercial paper of "prime" quality of the highest ranking or of the highest letter and numerical rating as provided for by Moody's Investor Services, Inc. or Standard and Poor's Corporation, bankers' acceptances, corporate notes, negotiable certificates of deposit of nationally or state-chartered banks or savings and loan associations, repurchase and reverse repurchase agreements.

The County's investments are categorized to give an indication of the level of custodial credit risk assumed by the County at June 30, 2003. All of the County's investments are categorized as Category 1, which is defined by the GASB Statement No. 3 as investments that are insured or registered or for which the securities are held by the County or its agent in the County's name.

Investment Pool

The County is subject to regulatory oversight by the Treasury Oversight Committee (the Committee), established in December 1995, as required by California Government Code Section 27143. The Committee consists of a representative from the County Board of Supervisors, the County Superintendent of Schools, a representative of the special districts who are required or authorized to deposit money in the County Treasury, a school board representative selected from the school districts and the community college districts within the County and a non-partisan public-at-large member. The Pool is not registered with the Securities and Exchange Commission.

Certain special districts and all public school districts are required by legal provisions to deposit their funds with the County Treasurer. The Pool consists almost entirely of such districts and includes 97 percent involuntary participants at June 30, 2003.

Condensed Financial Information

The Pool does not issue separate financial statements. Condensed financial information for the Pool as of and for the fiscal year ended June 30, 2003 is as follows:

NOTE 5 – INTERFUND TRANSACTIONS

Interfund Receivables/Payables

Interfund receivables and payables result from the time lag between the dates that 1) interfund goods and services are provided or reimbursable expenditures occur, 2) transactions are recorded in the accounting system or 3) payments between funds are made. The following schedule briefly summarizes the amounts due to/from other funds at June 30, 2003:

<u>Receivable Fund</u>	<u>Payable Fund</u>	<u>Amount</u>
General Fund	Internal Service Funds	<u>\$1,945,894</u>
Public Safety	General Fund	<u>38,393</u>

Special Assessment Debt

The total matured and unmatured bonds outstanding related to special assessment debt is \$24,012,382 at June 30, 2003. The County acts as an agent for the property owners in collecting special assessments, forwarding the collections to bondholders and initiating foreclosure proceedings, when appropriate. The County is not liable for repayment of the special assessment debt, and accordingly, they are not reflected in the accompanying basic financial statements. Cash held on deposit and corresponding amounts payable are reported in an Agency Fund.

Prior Year Defeasance

On June 1, 1998, the County issued \$13,200,000 in Certificates of Participation with an average interest rate of 4.7% to finance the cost of constructing a juvenile detention facility and to advance refund \$4,430,000 of outstanding 1994 Certificates of Participation with an average interest rate of 6.6%. Proceeds from the Certificates were used to purchase U.S. government securities. Those securities were deposited in an irrevocable trust with an escrow agent to provide for all future debt service payments on the 1994 Certificates of Participation. As a result, the 1994 Certificates of Participation are considered to be defeased and the liability for those certificates is not recorded in the governmental activities column in the statement of net assets. As of June 30, 2003, \$3,970,000 of the 1994 Certificates are outstanding.

Arbitrage

The Tax Reform Act of 1986 instituted certain arbitrage restrictions with respect to the issuance of tax-exempt bonds after August 31, 1986. Arbitrage regulations deal with the investment of all tax-exempt bond proceeds at an interest yield greater than the interest yield paid to bondholders. Generally, all interest paid to bondholders can be retroactively rendered taxable if applicable rebates are not reported and paid to the Internal Revenue Service at least every five years. During the current fiscal year, the County performed calculations of excess investment earnings on various bonds and financings, and at June 30, 2003, does not expect to incur a liability.

NOTE 8 – LEASE OBLIGATIONS

Capital Leases

The County uses administrative buildings, fire trucks, and construction equipment acquired under non-cancelable lease agreements classified as capital leases. The related assets and obligations have been recorded using the County's incremental borrowing rate at the inception of leases. The leases expire at various dates through 2009-2010.

Capital assets and accumulated depreciation held under capital leases are as follows:

	Governmental Activities	Business-type Activities	Total
Equipment	\$ 3,028,496	\$ -	\$ 3,028,496
Buildings and improvements	-	1,331,410	1,331,410

2009-2013	7,912,518
2014-2018	609,845
	\$ 23,157,894

Rents for all such leases have been recorded in the General Fund. Total rental expenditures under operating leases for the fiscal year ended June 30, 2003 were \$3,051,725.

NOTE 9 – EMPLOYEES' RETIREMENT PLAN

Plan Description

All full and part-time permanent County employees and certain extra help employees who have worked over 1,000 hours in a fiscal year are eligible to participate in the California Public Employees Retirement System (CalPERS). Elected officials may also participate at their option. Per diem employees and extra help employees working less than 1,000 hours in a fiscal year are excluded. Benefits vest after five years of service. To be eligible for retirement an employee must be at least 50 years of age and have five years of CalPERS credited service. Safety employees who retire at age 50 with five years of credited service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 3% of their average monthly pay rate for the last consecutive 12 months of employment, for each year of credited service up to a maximum of 30 years or 90%. Miscellaneous employees are entitled to the same maximum benefits at age 55 for each year of credited service up to 37 1/2 years. CalPERS also provides death and disability benefits. These benefit provisions and all other requirements are prescribed within a contract between the County and CalPERS.

The County contributes to CalPERS, an agent multiple-employer public employee retirement system that acts as a common investment and administrative agent for participating entities within the State of California. The benefits for the public agencies are established by contract with CalPERS in accordance with the provisions of the Public Employees Retirement Law. CalPERS issues a publicly available Comprehensive Annual Financial Report that includes financial statements and required supplementary information. A copy of that report may be obtained by writing to CalPERS, Central Supply, P.O. Box 942715, Sacramento, California 94229-2715.

NOTE 9 – EMPLOYEES’ RETIREMENT PLAN (Continued)

Funding Policy

Employees under the Miscellaneous Plan are required to contribute 7% and employees under the Safety Plan are required to contribute 9% of covered salary to CalPERS. The County is required to contribute the remaining amounts necessary to fund the benefits for its members, using the actuarial basis recommended by CalPERS actuaries and actuarial consultants and adopted by the CalPERS Board of Administration. For the fiscal year ended June 30, 2003, the employer contribution rate was 0% for the Miscellaneous Plan and 16.007% for the Safety Plan. The County, as part of its compensation to employees, pays a portion of its employees' contributions in addition to its own.

Annual Pension Cost

For the fiscal year ended June 30, 2003, the County's annual pension cost of \$12,054,967 for CalPERS was equal to the County's required and actual contributions. The required contribution was determined as part of the June 30, 2000 actuarial valuation using the entry age normal actuarial cost method. The actuarial assumptions included the following for both the Miscellaneous and Safety Plan, (a) a rate of return on investments (net of administrative expenses) of 8.25%, (b) inflation of 3.5%, and (c) projected salary increases of 3.75% to 14.20% for the Miscellaneous Plan and 4.27% to 11.59% for the Safety Plan, with a merit scale varying by duration of employment coupled with an assumed annual inflation component of 3.5% and an annual production growth of .25%. The actuarial value of the County's assets was determined using techniques that smooth the effects of short-term volatility in the market value of investments over a three-year period. The difference between the Actuarial Value of Assets and the Actuarial Accrued Liability is being amortized as a level percentage of projected payroll on a closed basis. The remaining amortization period for the Miscellaneous Plan and the Safety Plan at June 30, 2000 was 18 years and 16 years respectively.

NOTE 10 - OTHER POSTRETIREMENT BENEFITS

In addition to the pension benefits described in Note 9, the County provides postretirement healthcare benefits under two plans. In accordance with the Government Code, all employees electing a PERS retirement date within 120 days of retiring from the County are eligible to receive healthcare benefits. As of June 30, 2003, there were 670 retirees receiving healthcare benefits. The County reimburses approximately 81% of the monthly healthcare premiums. In accordance with County employment policies, retired employees may elect to apply each eight hours of accrued sick leave toward one month's healthcare coverage. Currently 155 employees have made this election. The County reimburses 100% of the monthly healthcare premiums. Expenditures for postretirement healthcare benefits relating to both of these plans are recognized as monthly premiums are paid and are financed on a pay-as-you-go basis. During the fiscal year, expenditures of \$2,914,216 were recognized for postretirement healthcare benefits.

NOTE 11 - CONTINGENT LIABILITIES

The County is a defendant in a number of lawsuits and has other claims pending, some of which seek substantial money damages. Some claims may not be covered under the County's excess liability insurance policy; however, management is of the opinion that the potential liability would not have a significant adverse effect on the County's financial position.

The County participates in a number of federally assisted grant programs. These programs are subject to financial and compliance audits by grantors or their representatives. Some audits of these programs for or including the fiscal year ended June 30, 2003 have not been concluded. Accordingly, the County's compliance with applicable grant requirements is yet to be established. The amount, if any, of expenditures which may be disallowed by the grantor agencies cannot be determined at this time, although the County's management does not expect such amounts, if any, to be material.

NOTE 12 - RISK MANAGEMENT

The County is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to and illnesses of employees; and natural disasters. The County maintains an Internal Service Fund to account for and finance its risks of loss. Under these programs, the County is self-insured for the following risks up to the maximum amount per claim as follows: Workers' Compensation, \$125,000; General Liability, \$500,000; Dental and Vision Care, \$1,500. Except for general liability, the County purchases commercial insurance for claims in excess of the preceding coverage amounts and for all other risks of loss.

For general liability claims, the County is a participant in the California State Association of Counties - Excess Insurance Authority (CSAC) excess liability insurance program. The County covers the first \$1,000,000 of claims. The purpose of the pool is to spread the adverse effects of losses among the member agencies. The County pays an annual basic premium for excess coverage and is assessed an annual risk premium based on an actuarial review that estimates each of the program's participant's ultimate liabilities. Should actual losses among participants be greater than anticipated, the County will be assessed its pro rata share of that deficiency. Conversely, if the actual losses are less than anticipated, the County will be refunded its pro rata share of the excess. Commercial insurance covers claims between \$1,000,000 and \$25,000,000. Settled claims have not exceeded this commercial coverage in any of the past three fiscal years.

FOR THE FISCAL YEAR ENDED JUNE 30, 2003

NOTE 12 – RISK MANAGEMENT (Continued)

The County Transit Fund is self-insured for public liability and property damage up to \$100,000 per occurrence. Claims between \$100,000 and \$500,000 are insured through the California Transit Systems Joint Powers Insurance Authority (CaTIP), a joint powers agency risk sharing pool, established in 1987 to provide an independently managed self-insurance program for member transit operators. Claims in excess of the pool limit are covered by excess insurance purchased by CaTIP up to \$10,000,000 per occurrence. The Transit Fund has not settled any claims exceeding the risk-pool limit of \$500,000 per occurrence for any of the past three fiscal years. The Transit fund has the following forms of coverage through CaTIP: bodily injury liability, property damage liability; public officials error and omissions liability; personal injury liability and collision and comprehensive coverage. The purpose of CaTIP is to spread the adverse effect of losses among the member agencies and to purchase excess insurance as a group, thereby reducing its expense.

All County funds participate in the self-insurance programs and make payments to the Self Insurance Internal Service Fund based on historical cost and/or actuarial estimates of the amounts needed to pay prior and current year claims (including future claim adjustment expenses), and to allow accrual of estimated incurred but not reported claims. The total historical cost/actuarially determined claims liability at June 30, 2003 is \$20,455,800 consisting of \$11,846,000 for Workers Compensation, and \$8,609,800 for General Liability. Changes in the Self Insurance Fund claims liabilities during the fiscal years ended June 30, 2003 and 2002 were as follows:

	Claims Liability July 1	Current Year Claims and Changes in Estimates	Current Year Claims Payments	Balance June 30
2001-2002	\$ 15,166,000	\$ 10,134,637	\$ (6,778,637)	\$ 18,522,000
2002-2003	18,522,000	8,310,373	(6,376,573)	20,455,800

The claims liabilities above, reported in the Self Insurance Internal Service Fund at June 30, 2003, are based on requirements of GASB Statement No. 10 and GASB Statement No. 30, which require that a liability for claims be reported if information prior to the issuance of the financial statements indicates that it is probable that a liability has been incurred at the date of the financial statements and the amount of loss can be reasonably estimated. These accruals represent estimates of amounts to be paid for reported claims, and incurred but unreported claims based upon past experience, modified for current trends and information. The County contracts with independent actuaries to compute the estimated liabilities for the County's self-insurance programs. The liability for unpaid claims for workers' compensation and general liability is discounted to reflect estimated net present value assuming a 4.7% and 5.0% interest rate, respectively. While the ultimate amounts of losses incurred through June 30, 2003 are dependent on future developments, based upon information provided by the County Counsel and others involved with the administration for the programs, the County's management believes that the aggregate accrual is adequate to cover such losses.

**NOTE 13 - COUNTY SOLID WASTE LANDFILL CLOSURE AND POSTCLOSURE
CARE COST**

The County accounts for solid waste landfill postclosure costs based on the provisions of GASB Statement No. 18, *Accounting for Municipal Solid Waste Landfill Closure and Postclosure Care Costs*. State and federal laws and regulations require the County to place a final cover on its Eastern Regional landfill site when it stops accepting waste and to perform certain maintenance and monitoring functions at the site for 30 years after closure. The County closed the landfill during the 1995-1996 fiscal year. The \$5,018,448 reported as landfill postclosure care liability at June 30, 2003, represents the cumulative amount reported to that date based on the use of 100% of the estimated capacity of the landfill. Actual costs may be higher due to change in estimated inflation, deflation, changes in technology, or changes in applicable laws and regulations.

The County is required by state and federal regulations to make deposits to its postclosure maintenance fund to finance postclosure care costs. The County has restricted cash and investments for the payment of postclosure care costs in the amount of \$693,801 as of June 30, 2003.

NOTE 14 - JOINT VENTURE

The County, in conjunction with the City of Roseville and the South Placer Municipal Utility District, has formed the South Placer Wastewater Authority (the Authority) on October 1, 2000 to provide for the planning, financing, acquisition, ownership, construction and operation of the Regional Wastewater Facilities (Facilities). The County's ongoing financial responsibility is for the payment of their proportionate share of the operational and maintenance costs of the Facilities. The County does not have any equity interest in the Authority and, as of June 30, 2003, the County does not expect any additional financial benefit or financial burden from the Authority. The Authority's fund equity as of June 30, 2003 was \$473,129. Complete audited financial statements for the South Placer Wastewater Authority can be obtained from the Authority's offices at 2005 Hilltop Circle, Roseville, CA 95747.

NOTE 15 - JOINTLY GOVERNED ORGANIZATIONS

The County, in conjunction with Alpine, El Dorado, Nevada and Sierra counties, has created Golden Sierra Job Training Agency, the purpose of which is to develop and implement a public and private employer's job training program under which local employment needs and goals will be determined and training and employment programs will be planned, developed, and administered. The Golden Sierra Job Training Agency is funded through grants by the federal and state governments. The County has no equity interest in Golden Sierra Job Training Agency and no ongoing financial responsibility.

The County, in conjunction with the Cities of Roseville, Rocklin, and Lincoln, has formed Western Placer Waste Management Authority, the purpose of which is to acquire, own, operate and maintain a sanitary landfill site and all related improvements. The County has no equity interest in Western Placer Waste Management Authority and no ongoing financial responsibility.

The County is a participant with the counties of Nevada, Sutter, Yolo and Yuba to develop and operate Sierra-Sacramento Valley Emergency Medical Services Agency (the Agency). The Agency was developed to coordinate the provision of emergency medical services and to conduct various other specifically designated functions. The County has no equity interest in the Agency and no ongoing financial responsibility.

COUNTY OF PLACER, CALIFORNIA
NOTE TO THE REQUIRED SUPPLEMENTARY INFORMATION
FOR THE FISCAL YEAR ENDED JUNE 30, 2003

NOTE 1 – BUDGETARY AND LEGAL COMPLIANCE

In accordance with provisions of Sections 29000 through 29144 of the California Government Code and other statutory provisions, commonly known as the County Budget Act, the County prepares and legally adopts a final balanced budget on or before August 30 for each fiscal year. Until the adoption of this final balanced budget, the appropriations are governed by the adopted proposed budget approved by the Board of Supervisors.

A balanced operating budget is adopted each fiscal year for the General, Special Revenue, Capital Projects, Debt Service, Enterprise and Internal Service Funds, except the Housing Activities Special Revenue Fund and Special Programs Special Revenue Fund. The budget is adopted on a modified accrual basis for the General, Special Revenue, Capital Projects and Debt Service Funds including encumbrances to reflect estimated revenues and expenditures. The budget is adopted on an accrual basis for Enterprise and Internal Service Funds. Public hearings are conducted on the proposed budget to review all appropriations and the source of financing. Because the final budget must be balanced, any shortfall in revenue requires an equal reduction in appropriations.

Supplemental appropriations may be made during the year by the Board if revenues are received from unanticipated sources, or from anticipated sources, but in excess of estimates thereof. Management cannot amend the budget without the Board's approval. Budget amounts reported in the accompanying basic financial statements reflect the original budget and the final budget, as amended. All unencumbered budget appropriations lapse at the end of the fiscal year.

The legal level of budgetary control is exercised at the budget unit (departmental) level. Amendments and transfers of appropriations between budget units or that involves the addition or deletion of a project or piece of equipment must be approved by the Board. Management can make adjustments of appropriations, at their discretion, within or between objects within the same budget unit. For the fiscal year ended June 30, 2003, there were no expenditures in excess of the adopted appropriations.

Individual fund budgetary comparisons are not presented at the detail budget unit level due to their excessive length. A separate publication presenting this information is available by contacting the Auditor-Controller's Office.

Encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditure of monies are recorded in order to reserve that portion of the applicable appropriation, is employed in the governmental funds. Encumbrances at year-end are reported as reservations of fund balances and do not constitute expenditures or liabilities because the commitments will be reappropriated and honored during the subsequent year.

INTERNAL SERVICE FUNDS

INTERNAL SERVICE FUNDS

Internal Service Funds

County Services Fund

This fund is used to account for the costs of providing services to County departments, including: telecommunications, countywide systems and technology projects, automotive fleet, reprographics, mail and records management services. Revenues are generated based on fees charged for services provided.

District Services Fund

This fund is used to account for the costs of providing services to County-governed utility districts, a county service area, and municipal advisory councils. Revenues are generated mainly through user charges and connection fees.

Self Insurance Fund

This fund is used to account for the costs of administering the County's risk management program, which includes: unemployment, general liability, workers compensation, dental and vision insurance. The primary source of revenues for the fund is premiums paid by other funds.
